

UNIVERSAL COMMUNICATIONS SERVICE ACCESS FUND

PUBLIC REGISTER OF UNIVERSAL SERVICE PROVISION

1. INTRODUCTION

The Government of the United Republic of Tanzania established the Universal Communications Service Access Fund (the Fund) to promote universal access to information and communications technology services in Tanzania. The Fund is responsible for enabling accessibility and participation by communication operators in the provision of communication services, with a view to promoting social, economic development of the rural and urban underserved areas; to provide for availability of communication services by establishing a legal framework for universal service providers to meet the communication needs of consumers.

Section 15 of The Universal Communications Service Access Act, 2006 provides designation of universal service providers. Regulation 28(1) of the UCSAF's Regulations of 2009 states that *The Fund shall maintain a register of universal service provision which shall include the following: -*

- a) Designated service providers;
- b) A list of licensees contributing to the Fund; and
- c) A list of information required by the Fund when determining designated universal service providers.

Following this requirement, the Fund has developed this register that is subject to update from time to time.

2. DESIGNATED SERVICE PROVIDERS

The following section presents designated service providers for universal service provision. These are mainly mobile operator service providers whose main responsibility is to extend mobile communication in rural and urban underserved areas of the country. Through the subsidy provided by the Fund, currently there are 1,974 wards that will receive communication service through these designated service providers as indicated in **Annex I** of this register.

Also, other projects including school connectivity have been indicated starting from Annex 1A to annex 1H. Apart from school connectivity projects, the Fund has implemented various projects including Community radio in Arusha as well as Digital broadcasting project in Simiyu, Geita, Njombe and Katavi. A list of Telecentres in Zanzibar is indicated in Annex 1J.

A table below summarizes different phases of rural telecommunication projects being implemented by the Fund. Other projects are indicated in subsequent other annexes.

Table 1- Different Phases of Rural Telecommunication Projects Being Implemented

NO	PROJECT	CONTRACT SIGNED	WARDS	SUBSIDY (USD)
1	PHASE 1	8 th March 2013	52	5,827,978

3. A LIST OF LICENSEE'S CONTRIBUTING TO THE FUND

Regulation 5(1) of the Regulations of the Fund states that all holders of communication licenses shall be required to pay to the Fund a universal service levy of 1.25 percent of their yearly gross operating revenue. A complete list of licensees is provided in Annexes II to **VII** of this report. A complete list of licensees can also be found on the Regulator's website, located at <https://www.tcra.go.tz>, which is updated periodically.

4. INFORMATION REQUIRED WHEN DESIGNATING SERVICE PROVIDER

The beneficiaries of subsidies from the Fund are all licensees contributing service levies to the Fund. The following information is required when designating a service provider:

- a) Should be licensed by TCRA;
- b) Should be operating in the United Republic of Tanzania;
- c) The average required annual volume of revenue from Telecommunications services should be above USD 10 million; and
- d) The main network element to be made available by the service provider is a complete mobile base station compliant with license requirements, as well as transmission links and all core networks compliant with the same requirements.
